

POSITION OPENING: RESEARCH ASSISTANT (3-4) MATERIALS DEVELOPMENT GROUP, INDIA

Seeo is a venture-capital backed company developing a new class of high-energy rechargeable lithium batteries. With a team of world-class scientists and engineers, and funding from Silicon Valley's top investors (including world renowned Vinod Khosla, and Google.org), Seeo is moving full speed toward revolutionizing electricity storage and delivery. We are currently looking for bright, and experienced **Research Assistants** with an organic synthetic chemistry background for the **Materials Development Group** of the Indian subsidiary of Seeo Inc, USA. The India R&D facility will be at the NCL Pune's Venture Center. The group will have an R&D Manager, 3-4 Scientists, and 3-4 Research Assistants. The India facility will be operational in Q1-Q2 2009. The synthetic efforts would involve scale up of polymers, and discovery of new molecules.

Primary Responsibilities:

1. Assist with routine organic syntheses (polymers, additives), and report to a Scientist
2. Assist in basic characterization of small molecules and polymers via GPC, IR, etc.
3. Document synthetic and characterization protocols
4. Maintain laboratory chemicals, & personal protective equipment, and inventory
5. Maintain chemical and hazardous materials waste handling protocols
6. Establish safe materials handling, lab up-keep, and good house-keeping

Requirements:

1. Masters in synthetic organic chemistry preferred; applicants with a Bachelors and synthetic experience will be considered
2. Laboratory research or technician experience
3. Ability to prepare documents, write procedures and technical reports
4. Commitment to honesty, excellence, and continuous improvement

About Seeo:

- We offer competitive compensation packages, and a comprehensive employee benefit package (Salary range: Rs 4,00000 – Rs 5,50000 /yr).
- We recognize that every employee is absolutely critical to our mission, and are dedicated to the personal and professional development of every individual on board.
- We are committed to integrity, excellence, hard work, and continuous improvement.
- We are conscious of environmental and social sustainability in our business practices.

To apply:

- Send cover letter and resume to hr@seeo.com with "Scientist, Materials Development Group, India" in the subject line. For additional information, please call:
